SECURE AND COMPLIANT
KEEP YOUR DATA PROTECTED

MEET WITH AN EXPERT

WE ARE SECURE AND WE PROVE IT

At LightEdge, we put our clients at the forefront of data center security and compliance. Our approach goes beyond just meeting regulatory requirements; it's about providing our clients with a seamless means to demonstrate the formidable security of our data center while achieving compliance. Through meticulous control mapping and our robust compliance-as-a-service offering, we simplify the compliance journey for our clients, making it a reflection of their commitment to safeguarding their data. By integrating security and compliance into every aspect of our service, we empower our clients to trust us fully, knowing that we are taking their compliance concerns off their shoulders and safeguarding their valuable data.

THE BENEFIT OF COMPLIANCE INHERITANCE

Compliance Inheritance allows organizations to collaborate with specialized service providers like LightEdge to seamlessly integrate and manage compliance measures. This approach allows businesses to offload the complexities of compliance, mitigate risks, and benefit from expert resources, ensuring they maintain the highest levels of security and regulatory compliance while focusing on their core objectives with confidence. With compliance inheritance, you organization receives:

STREAMLINED RISK MANAGEMENT
Utilize LightEdge Compliance Inheritance to exert control up to the service layer, effectively transferring risk and liability to us, safeguarding your organization from potential compliance-related issues.

EFFORTLESS COMPLIANCE JOURNEY
Our service simplifies the path to compliance, whether you need to support your clients or meet stringent regulatory requirements. We ensure that compliance becomes a seamless process, saving you time and resources.

EXPERT GUIDANCE
Leverage the expertise of LightEdge professionals, including our Chief Security Officer, to extend your compliance capabilities. We assist with compliance planning, audits, and vendor RFPs, which not only ensures adherence to regulations but also drives new business opportunities.

TRANSPARENCY AND DOCUMENTATION
Gain access to comprehensive management reports and attestation documents, providing you with the transparency and documentation necessary to demonstrate your commitment to compliance and data security to clients and regulatory entities.

LightEdge works collaboratively with its customers to eliminate compliance as an obstacle to growth and to bring back crucial time to work on critical objectives. Our experts take the guesswork out of keeping your business and its vital data protected. We pass our compliance expertise and security benefits onto you through our colocation and cloud services.
